

# Monita R Series

The **Monita** is the ultimate GSM/GPRS asset alarm monitoring or Remote Meter Reading device for everything that you need to monitor ....

#### Consider these features :-

- 4 change of state alarm inputs, i.e. power, smoke, intrusion, fault etc
- Meter Count option on inputs
- SMS or Email Alarm Messages or meter readings to upto 5 numbers
- 2 million record logging capacity
- Automatic All OK messages
- Waterproof to 1.0 metre
- Upto 10 Year stand alone battery life
- Small size only 85mm dia x 175 mm high
- Internal or External Antenna
- Low Battery Alarm
- Multiple mounting methods

At last a total monitoring solution in one small package that is both rugged and weatherproof and runs of its own power supply. The **Monita** monitors your investment continuously and notifies you immediately without external power. Messages can be received either by Email or SMS or both!.

Easily programmed via a PC using the Infra-Red Cable (ordered separately) & Software downloaded from the web (SIM card not supplied, Email notification is network dependant)
